

## Full-time Biomedical Engineering Technologist needed to join our team at Nanaimo Regional General Hospital.

You will inspect, test, maintain, and perform difficult repairs on biomedical and other equipment pertaining to designated areas of the hospital such as radiology, respiratory, anaesthesia, and the operating room. You will also carry out acceptance tests for new biomedical equipment, and provide technical advice to equipment users.

### Qualifications

The ideal candidate is a graduate from a recognized program in Biomedical Engineering Technology. A valid Class 5 vehicle license is required. An equivalent combination of education, training, and experience may be considered.

### About Us

Island Health is one of five regional health authorities in British Columbia. With over 21,500 employees, 1,900 physician partners and 6,500 volunteers that give their time, skills and experience to our organization, Island Health is the largest employer on beautiful Vancouver Island. At Island Health, we believe that our values guide our actions and relationships, shaping how we make decisions and plan for the future.

We offer an exceptional employer-paid benefits package including dental and prescription coverage, group life, long term disability and extensive extended health plan, plus up to four weeks' vacation after your first year of employment.

The North Island Comox Valley Hospital opened its doors in October 2017 and with state-of-the-art equipment, provides exceptional patient care to residents in the Comox Valley.

*Come be part of our future!*

*Excellent health and care for everyone, everywhere, every time*
